ACKNOWLEDGEMENTS

The project team would like to record their thanks to the following:

- members of the Primary Mathematics Team who developed the first edition and second edition of the package
- members of the Steering Committee for the second edition of the package
- teachers who tested the materials in the package and provided useful insights and suggestions
- Educational Technology Division, for the design and production of the audio-visual components of the package
- all those who have helped in one way or another in the development and production of the package
